2301
Dairy Premix 1:1

Mineral for lactating dairy cows.

GUARANTEED ANALYSIS

Calcium, Min.....9.300%
Calcium, Max.....11.20%
Phosphorus, Min.....10.00%
Magnesium, Min.....5.00%
Potassium, Min.....1.40%
Selenium, Min.....21.0 ppm
Vitamin A, Min.....500,000 IU/lb
Vitamin E, Min.....670 IU/lb

INGREDIENTS

Dicalcium Phosphate, Processed Grain By Products, Calcium Carbonate, Magnesium Oxide, Monoammonium Phosphate, Potassium Chloride, Animal Fat, Cane Molasses, Potassium Sulfate, Magnesium Sulfate, Zinc Oxide, Sodium Bicarbonate, Manganous Oxide, Copper Sulfate, Yeast Culture, Vitamin E Supplement, Zinc Proteinate, Manganese Proteinate, Vitamin A Supplement, Nicacin, D-Activated Animal Sterol (Source of Vitamin D-3), Soybean Oil, Ethylenediamine Dihydriodide, Cobalt Carbonate, Sodium Selenite, Natural and Artificial Flavors.

FEEDING DIRECTIONS

Dairy Premix 1:1 is formulated to be fed at 10oz per head per day.

Dairy Premix 1:1 is formulated to be mixed into the dairy cows ration when the primary forage being fed contains high levels of calcium such as mixed of legume forages (alfalfa and clover). Dairy 1:1 may be fed on a free choice basis by mixing 3 parts dairy 1:1 with (1) part salt.

The amount of Valley View's Dairy Premix 1:1 needed to balance the ration will vary with production and kind and amount of forage being fed. For determination of the optimum level of Dairy 1:1 required, contact your Valley View representative for ration and forage analysis.

INGREDIENTS

Dicalcium Phosphate, Processed Grain By Products, Calcium Carbonate, Magnesium Oxide, Potassium Chloride, Potassium Sulfate, Magnesium Sulfate, Animal Fat, Cane Molasses, Sodium Bicarbonate, Zinc Oxide, Manganous Oxide, Yeast Culture, Copper Sulfate, Vitamin E Supplement, Zinc Proteinate, Manganese Proteinate, Vitamin A Supplement, Nicacin, D-Activated Animal Sterol (Source of Vitamin D-3), Soybean Oil, Ethylenediamine Dihydriodide, Cobalt Carbonate, Sodium Selenite, Natural and Artificial Flavors.

FEEDING DIRECTIONS

Dairy Premix 2:1 is formulated to be fed at 10oz per head per day.

Dairy Premix 2:1 is formulated to be mixed into the dairy cows ration when the primary forage being fed contains medium/high levels of calcium such as mixed of legume/grass forages or higher levels of corn silage. Dairy 2:1 may be fed on a free choice basis by mixing 3 parts dairy 2:1 with (1) part salt.

The amount of Valley View's Dairy Premix 2:1 needed to balance the ration will vary with production and kind and amount of forage being fed. For determination of the optimum level of dairy 2:1 required, contact your Valley View representative for ration and forage analysis.
