

The BedShaper

Forget labor intensive and back-breaking edging with a shovel. With the BedShaper®, you'll create clean, sharp edges, even "S" curves, at up to 100' per minute. With these speeds, you'll cut your labor costs almost as fast as you'll cut the most intricate shapes!

By edging up to 100' per minute, the innovative BedShaper makes short work of your largest edging projects. The BedShaper uses a powerful notched blade that slices through soil and turf to create a clean, sharp edge. Competitive machines can only edge 10' per minute. The Little Wonder BedShaper is packed with innovative and patented features that make it the most technically advanced and easiest to use edger on the market today.

The BedShaper is the only piece of equipment for installing underground dog fence!!!!
